STM Program

Co-financed by the European Union
Connecting Europe Facility

What´s needed for the future?

- Long-term program and financing instead of fragmented and short-term projects
- More efficient coordination of the STM Master Plan (large number of coming STM projects)
- Governance
- Deployment of mature STM services in selected regions starting 2019

SEA TRAFFIC MANAGEMENT

Welcome to Venice

12-13 September 2017 for the

STM Midterm Conference

Connect & Share!

STM Validation Project – probably the largest e-Navigation project in the world with 300 ships and 13 ports – will share results from test beds in Northern Europe and the Mediterranean.

Co-financed by the European Union
Connecting Europe Facility
