What lies ahead?

Priority area 1; Policy and decision makers/national and international coordination. (14 votes)

An established management of the project by reaching policy and decision makers.

Suggestion lies also as a possible platform project.

EU STRATEGY FOR THE BALTIC SEA REGION FLAGSHIP

Interreg Baltic Sea Region

EUROPEAN UNION

EUROPEAN REGIONAL DEVELOPMENT FUND

DiveSMART-Baltic

Platform idea in brief;

- The establishment of national diving councils in those countries it is possible.
- An international board/council with 1-2 representatives per country around the Baltic Sea.

Interreg Baltic Sea Region

EUROPEAN UNION
EUROPEAN REGIONAL DEVELOPMENT FUND

DiveSMART-Baltic

What would the councils do?

Upkeep of the database; competences and technical resources.

Planning of exercises, national and international, development and adoption of SOP:s

Technical resources, common use and coordination of equipment, new research and development, testing of equipment, sharing lessons learned.

Possibly an international task force in the future.
