Baltic Maritime
SCIENCE PARK

Improving Maritime Safety through Research and Innovations

1. How do we best collect and combine results from the multitude of ongoing projects on maritime safety?

2. How do we ensure the transference of project results into innovations and new partnerships?

3. Which is the next step for Maritime Safety in the Baltic Sea Region/Europe?

Baltic Maritime
SCIENCE PARK

Innovation Platform

1. Venues/Meeting places
2. Networking/match-making
3. Initiate, support and guide projects

Update, Jan 2014

Three thematic forums up and running

- **Maritime Science** –interaction between organization, human actors and technology
- **Oil Spill forum** – risks, preparedness and response in the Baltic Sea Region
- **Sea of Invention** – a forum on already existing technology/innovations for reducing problems in the Baltic Sea

Baltic Maritime
SCIENCE PARK

Progress

Two additional thematic forums under initiation:

- **Maritime Spatial Planning (MSP)** – the sea is getting crowded, a constant increase in different activities – how do we prepare and plan the Baltic Sea?
- **Safety and Security in Ports** – vulnerability, analysis of flows and new regulations

→ ”Maritime innovations”

- *”Sludge adapter”, Baltic Master II*
- *Identify problem → find solution*
- *Many parts of the chain that can be safer, cleaner and more efficient*

BalticMasterII
maritime safety across borders
