

Order amending the order on Notice A from the Danish Maritime Authority technical regulation on occupational health in ships

Section 1

In order no. 1246 of 11 December 2009 on Notice A from the Danish Maritime Authority, technical regulation on occupational health in ships, as amended by order no. 817 of 30 June 2011, order no. 924 of 3 July 2013, order no. 1283 of 11 November 2013 and order no. 508 of 23 April 2015, the following amendments shall be made:

1. *The introduction* shall be as follows:

"In pursuance of section 1(2) and (3), section 3, section 4(1)-(3), section 5, section 20(4) and (5), section 27(4) and section 32(8) of the act on safety at sea, cf. consolidated act no. 72 of 17 January 2014, as amended by act no. 1384 of 23 December 2013, act no. 618 of 12 June 2013 and section 1(2) and (3), section 3, section 4(1)-(3), section 5, section 20(4) and (5), section 27(4) and section 32(2) of the act on safety at sea as enacted for Greenland by decree no. 71 of 29 January 2013, and by authority, the following provisions are laid down:"

2. *Chapter I, Part B, annex 2*, shall be as follows:

"List of substances and materials with which young people below the age of 18 shall not work or to which they shall not be exposed in any other way:

1) Substances and materials complying with the criteria for classification, cf. regulation (EC) no. 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances mixtures, etc., as amended (the CLP regulation), which can be labelled with at least one of the following symbols or GHS pictograms:

GHS06, skull and crossbones

GHS08, health hazards

GHS05, corrosion

GHS01, exploding bomb

or which comply with the criteria for classification, cf. the CLP regulation, within one or more of the following hazard classes and hazard categories, with one or more of the following hazard clauses:

acute toxicity, category 1, 2 or 3

H300 Fatal if swallowed

H310 Fatal in contact with skin

H330 Fatal if inhaled

H301 Toxic if swallowed

H311 Toxic in contact with skin

H331 Toxic if inhaled

- skin corrosion, category 1A, 1B or 1C

H314 Causes severe skin burns and eye damage

- flammable gases, category 1 or 2

H220 Extremely flammable gas

H221 Flammable gas

- flammable aerosols, category 1
- H222 Extremely flammable aerosol
- flammable liquids, category 1 or 2
- H224 Extremely flammable liquid and vapour
- H225 Highly flammable liquid and vapour
- explosives, category "unstable explosives" or explosives of group 1.1, 1.2, 1.3, 1.4, 1.5
- H200 Unstable explosive
- H201 Explosive, mass explosion hazard
- H202 Explosive, severe projection hazard
- H203 Explosive, fire, blast or projection hazard
- H204 Fire or projection hazard
- H205 May mass explode in fire
- self-reactive substances and mixtures type A, B, C or D
- H240 Heating may cause an explosion
- H241 Heating may cause a fire or explosion
- H242 Heating may cause a fire
- organic peroxides type A or B
- H240 Heating may cause an explosion
- H241 Heating may cause a fire or explosion
- specific target organ toxicity – single exposure, category 1 or 2
- H370 Causes damage to organs *<with indication of the organs affected, if relevant>*
- H371 May cause damage to organs *<with indication of the organs affected, if relevant>*
- specific target organ toxicity – repeated exposure, category 1 or 2
- H372 Causes damage to organs *<with indication of the organs affected, if relevant>* through prolonged or repeated exposure
- H373 May cause damage to organs *<with indication of the organs affected, if relevant>* through prolonged or repeated exposure
- aspiration hazard, category 1
- H304 May be fatal if swallowed and enters airways
- respiratory sensitisation if inhaled, category 1, sub-category 1A or 1B
- H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled
- skin sensitisation, category 1, sub-category 1A or 1B
- H317 May cause an allergic skin reaction
- carcinogenicity, category 1A, 1B or 2
- H350 May cause cancer
- H350i May cause cancer by inhalation
- H351 Suspected of causing cancer
- germ cell mutagenicity, category 1A, 1B or 2
- H340 May cause genetic defects
- H341 Suspected of causing genetic defects
- reproductive toxicity, category 1A, 1B or 2
- H360 May damage fertility or the unborn child
- H361 Suspected of damaging fertility or the unborn child

- 2) Substances, materials and processes covered by the order on measures to prevent cancer when working with substances and materials.
- 3) Organic solvents on the list issued by the Danish Working Environment Authority of organic solvents in the AT instruction on limit values for substances and materials.
- 4) Materials containing 1 % or more of solvents mentioned under item 3.
- 5) Biological agents in groups 3 and 4 of the order on biological agents and occupational health, or with other work where they may – due to the nature of the work or the conditions under which it is carried out – be exposed to the effect of such agents.
- 6) Lead and lead compounds insofar as they can be absorbed by the human organism.
- 7) Asbestos.
- 8) The handling of fireworks as well as different objects, machinery, etc. that contain explosives."

3. *Chapter II, Part A, regulation 3, paragraph 1*, shall be as follows:

"In case of acquisition in countries within the European Union, the labelling may be in English, cf. article 17(2) of regulation (EC) no. 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing directives 67/548/EEC and 1999/45/EC, and amending regulation (EC) no. 1907/2006 (the CLP regulation)."

Section 2

This order shall enter into force on 1 July 2017.

Danish Maritime Authority, 20 June 2017
Per Sønderstrup / Jesper Jarl Fanø-Fredeløkke
