Name and Signature		Name and Signature	

The Power of Attorney or Procura must be submitted if signed in accordance with the Power of Attorney or Procura.

All illegible signatures must be repeated in block letters, by a stamp or in typescript.

## GUIDELINES

Please forward this form  
and original documents to:

The Danish Maritime Authority  
Register of Shipping  
Caspar Brands Plads 9  
DK-4220 Korsør

This form must be used when applying for registration of a ship with a gross tonnage of or above 5 but below 20.

If the Shipowner is not registered in the Register of Shipping, an application for registration of the Shipowner must be submitted.

Proof of ownership of the ship must be enclosed in the original, for example, in the form of a builder's certificate, a ship deed or a bill of sale (title deed).

The title deed must be signed by the signatory authorised to sign for the shipyard/seller.

The authority to sign for the shipyard/seller must be appropriately documented. If a ship is bought abroad, the signature must be confirmed by the Notary Public in the country concerned.

If the hull of the ship has been built at one shipyard and the ship has been completed at another shipyard, an original builder's certificate must be submitted from each shipyard.

In **field q**, previous Shipowners must be mentioned and proof that they have been owners of the ship must be enclosed as a copy either in the form of a deed, contract of sale or bill of sale. If it is not possible to acquire proof, a declaration must be forwarded from the seller stating to whom he has sold the ship as well as the name and port of registry of the ship at that time. The declaration must be submitted on the form "declaration on previous ownership". Furthermore, a copy of the builder's certificate or similar from the construction yard must be forwarded.

If the ship is imported from abroad, either a certificate of deletion or a non-registration certificate must be enclosed from the Register of Shipping of the country concerned.

A tonnage certificate must be submitted. This must have been issued by a company authorised to carry out tonnage measurement of ships by the Danish Maritime Authority. The tonnage certificate must earliest be issued 18 months before the application date for registration.
